ABOUT OUR MINISTRY

At Obria, we seek a relationship with our patient that focuses on wellness for the whole person – physical, mental, spiritual, and social needs. We are dedicated to providing services based on specific needs, rather than just physical symptoms. When it comes to women’s health – before, during, and after pregnancy – our whole person approach is especially important as we are helping to care for not one but two human beings.

Families today face many challenging issues that span from the moment of pregnancy through the teenage years into adulthood. These issues can have an enormous impact on each person, threatening the family unit as a whole. The Hope Family Center provides a life-on-life blueprint for individuals and families to tackle and overcome these challenges and thrive.

Championing the future of children by educating and empowering parents because no one is beyond HOPE.

Our Hope Community Division is devoted to helping families thrive through our education programs. Parents and families receive training, resources and support needed to provide a nurturing relationship and an optimal environment that will empower and unify their family. Our communities are only as strong as our most vulnerable families.

Hope House is committed to providing a safe, supportive, residence for young women who find themselves facing an unplanned pregnancy. Through our 18-month housing program, we offer residents subsidized housing while giving them the respite and resources needed to move towards a better life for themselves and their child.

ANNUAL SPONSORS

The Kids and Families of Texas Need Your Help!!

The work that Anchor Point does stretches throughout Texas and beyond. Follow an Anchor Point staffer for a week, and you will witness moments that range from the fearlessly energetic to the quietly intimate.

Everything we do shares this in common: it would be impossible without your generosity. Anchor Point relies on giving from individuals, corporations, and local organizations to make sure that we are available in the time of need.

"GIVE THE GIFT OF
A BETTER FUTURE."

Pathway to Hope Camp is designed to create connection before correction, helping children and their families thrive. The approach is built off of the great work of Dr. Karyn Purvis and the Institute of Child Development at Texas Christian University and their Trust Based Relational Intervention (TBRI) model. This model is an emerging intervention for a wide range of childhood behavioral problems. Trust Based Relational Intervention has been applied successfully in a variety of contexts and with many children for whom other interventions have failed (e.g. medications, cognitive-behavioral therapies). The TBRI model emphasizes the integration of the following intervention principles:

- Empowering Principles (felt safety, safe touch, nutrition, hydration, sensory processing and self-regulation) Connecting Principles (attachment, engagement strategies and playful interaction) Correcting Principles (life value terms and IDEAL response)

"The ultimate goal of our camp is to help families and children construct meaningful connections and deeper relationships. It will allow the children to not only survive but ultimately thrive in life. Take advantage of this week to connect and have some fun along the way!"

July 20-25, 2025
